

Dear Hiring Team,

I am writing to express my interest in the DevOps Engineer position at CloudNova Technologies. As a Computer Science graduate based in Bengaluru, I bring a strong foundation in DevOps principles, with hands-on experience in AWS, Linux administration, Docker containerization, and CI/CD pipeline automation. My technical training and project work have equipped me with the practical skills necessary to contribute effectively to cloud infrastructure management and software delivery automation.

During my DevOps internship, I applied Linux administration and CI/CD fundamentals to support deployment processes, gaining valuable exposure to automation and cloud operations. I also designed and implemented a containerized CI/CD pipeline using Docker, GitHub Actions, and AWS EC2, which demonstrated my ability to integrate containerization with cloud infrastructure to streamline build, , and deployment workflows.

My technical skill set includes proficiency in AWS, Docker, Bash scripting, Python, Git, and Linux, complemented by experience with VS Code and Postman for development and ing. I am committed to continuous learning and am currently pursuing AWS certification to deepen my expertise.

I am particularly drawn to CloudNova Technologies because of your focus on cloud and SaaS solutions, which aligns with my passion for scalable and automated infrastructure. I am eager to contribute to your team by leveraging my technical skills and collaborative approach to enhance software delivery and cloud infrastructure management.

Thank you for considering my application. I look forward to the opportunity to discuss how my background and skills can support CloudNova Technologies' DevOps initiatives.

Sincerely,
Anita Rao
